OTHER INFORMATION

Average tax rate..... It 16.74%

corresponds to the rate at which all of your household income declared for 2022 is taxed. The average tax rate is different from the withholding tax rate, because the latter is calculated excluding tax reductions or credits and does not take into account certain income, such as capital gains from the sale of securities or income taxed at a flat rate.

Marginal tax rate..... 30.00%

The marginal rate corresponds to the rate of the highest bracket of the income tax scale at which the declared income of your tax household is taxed for the year 2022.
